

Info-Sys Enterprise-Propane

Complete business solution-specific features for the Propane industry

Info-Sys Enterprise for retail home heat and propane is a fully integrated operational and financial system encompassing multiple functions from accounts receivables to inventory.

With functions tailored to the propane industry, you can easily manage all the aspects of your business while benefiting from other functions the system offers to increase your efficiency.

The Propane Module are an integral part of our business software, Info-Sys Enterprise, and can be coupled with all Info-Sys products, to provide the global solution for your company.

Benefits

Centralization of tank and equipment inventory

Optimization of asset movement and movement history

Simplification of the billing process of metered accounts

Integration of propane account maintenance and history

Comprehensive pricing methodology

Reduction of short drops through Julian and degree day scheduling

Streamline your business process to enhance productivity

Propane Module Features

- Serialized tank and equipment tracking
- Meter billing
- Transaction and delivery reporting by main tank and individual meter
- Supports degree day, period accounts and day of the week (Julian) delivery
- Delivery scheduling for non heat uses of propane (fireplace, dryer, hot water heaters, pool heat, grills etc.)
- Conversion factors for meters and cylinders
- Pre-buy, Cap and Fixed pricing by volume and date range
- Step pricing by volume, tank size, and date range
- Asset tracking for appliances, tanks, regulators and tank movement
- Cylinder Exchange tracking and inventory
- Gas Check information for appliances and tanks
